THE SIGNATURE
COLLECTION

Where Design Meets *Depth.*

GRAIN

THE SIGNATURE COLLECTION

At Wood Panel by Hammami, surfaces are more than materials. They are the foundation of meaningful interiors. GRAIN is a carefully curated laminate collection created for spaces that value warmth, character and timeless design.

Featuring 66 distinctive laminate designs, the collection brings together contemporary aesthetics, refined wood textures and versatile finishes that seamlessly adapt to modern living and commercial environments. Every surface is designed to enhance the experience of a space while maintaining durability, practicality and visual balance.

Driven by a passion for craftsmanship and detail, Wood Panel by Hammami believes that exceptional interiors begin with thoughtful materials. Each design within GRAIN reflects a balance between natural inspiration and modern functionality, offering architects, designers, manufacturers and homeowners the freedom to create spaces with depth and individuality.

With a focus on quality, consistency and evolving design trends, the brand continues to deliver surfaces that are elegant, reliable and made for everyday living. From subtle grains to bold textures, every laminate in the collection is crafted to leave a lasting impression.

GRAIN is not simply a catalogue of laminates. It is a collection designed to shape interiors with style, comfort and purpose.

Where Design Meets Depth.
